

Oracle Opt-In

This article highlights the necessary steps for the Oracle opt-in option. You must know your iQue credentials to access your profile.

The screenshot shows the iQue Brothers' Management System interface. At the top, there is a header with the iQue logo on the left and links for 'Sign In' and 'Create Account' on the right. Below the header, there are two buttons: 'MY PROFILE' and 'CHAPTER SEARCH'. The main content area is divided into three sections. The top section is titled 'Sign In' and contains a form with the following elements: a 'Username' label with a question mark icon, a text input field containing 'Control number', a 'Required' label in red, a 'Password' label with a question mark icon, a password input field with masked characters, a checkbox labeled 'Keep me signed in', and a 'Sign In' button. Three purple arrows point to the 'Control number' field, the password field, and the 'Sign In' button. Below the 'Sign In' form are two columns. The left column is titled 'Create Your Account' and contains text explaining that new users need to create an account, followed by a 'Create Account' button. The right column is titled 'Reset Your Password' and contains text explaining that existing users need to reset their password, followed by a 'Reset Password' button.

- Step 1
 - Log into your iQue profile (use 9-digit control number as username).

- Step 2
 - Select the Communication Preferences tab on the homepage of your profile.
- Step 3 (images on next page)
 - Click the Oracle Opt-In checkbox.
 - Select Save
 - Done
